LikedIt

We read your heart!

LikedIt provides a reliable and detailed feedback for viewers. The website understands your appreciation level and emotions through your facial expressions in real time, while you are watching the video.

Liking & Emotion Levels
Level of liking and five emotions for each scene : anger, hapiness, disgust, fear and suprise.

Attention Map
Spatial attention while watching videos.

Trends
Videos that get the highest rates from LikedIt.

What about privacy?
We don't save any personal data, only feedbacks.
We offer a standalone desktop application to process your facial information on your own machine .
