# PIGEON'S MAP

Pigeon's Map creates an optimum route with multiple destinations for the user. It is mainly designed for postal workers. They can enter the delivery addresses and receive an optimal delivery route.

Covid-19 pandemic changed the people's shopping habits. They are afraid of going out and they mostly prefer online shopping now. This caused a dramatic increase in the workload of the postal workers. Time efficiency has become essential to keep up with the high order counts.

Although Pigeon's Map is mainly designed for postal workers, anyone who has a similar goal can use this application. If you want to visit multiple places with the highest efficiency, Pigeon's Map provides you an optimal path as well.
